"U.S.S Lesuth A.K. 125

Tokyo Bay, 10/3/45

Recieved your letter a little while ago...We are still here in Japan but expect to leave within two days. We are nearly unloaded. There was supposed to be five L.C.T's coming alongside today. But there is a storm brewing up so guess they won't be coming. Just closed up the hold, #4. brought the gig aboard. And it all had to be done during chow time, the same as it always was...Quite a few guys have left again...Guess we will be going back to the Phil. islands from there we don't know where...We can expect a rough trip wherever we go tho. Remember the time we came back from Guadalcanal...It was pretty rough between Pearl & Frisco. Don't care very much for that kind of weather but guess we have to take it. Would be nice to come back to the states & we are all hoping for it. Perhaps won't make any more trips across, 30 points you know. & there is talk of upping it a quarter point for sea duty. That would raise my score to 36. I expect to be out this spring sometime. Hope the same for you old man.

This Tokyo Bay is a treacherous piece of water. It can be perfectly calm, then within ten minutes it can be rougher than blazes. Have been on two liberties so far. Yesterday was the last one. Will be no more here. To my opinions this Japan stinks. They brought beer into Yokosuka City. They could just as well dropped a bomb instead as the town will be wrecked in time anyway...

...This letter won't be very long...as they are really starting to get hot. The entire ship has to be painted & cleaned up, everything starting to be secured for sea...Yesterday afternoon, not quite a half mile from us, a Japanese tug with a barge alongside blew up with a tremendous explosion. They had been carrying live J \_ p ammo and the water was pretty rough. There were 30 fellows on the barge 12 or 13 were killed by the blast. They lowered the gig in double time so [our guys] were the first ones over there to offer help. There were quite a few other boats around but none of them dared to go in as the live ammo was still smoking & lying all about...made three trips over to the hospital ship with 2 wounded Americans & the rest J \_ ps. One Amer. died on the way...said it was an awful sight, with guys laying all over with their arms, legs, brains & guts splattered from here to h \_ \_ 1 and gone...There is another storm supposed to hit & the sea is getting pretty rugged. Thats all there is around here. Makes unloading nearly

My Sis...was pretty sore at me you know, perhaps still is for she hasn't written to me. You bro. got a deferment till Feb. Fine. Where is he going in the Army or Navy. Heard the Navy is getting a new style uniform. Wonder what they will look like. Tell you what...the next time we get together we will spend it together more often. We will chase women if we feel like it...

...Im going to sign off now...Write again soon will you. I'll do the same first chance I get. Glad to hear from you this time so keep it up. Greet your folks for me. Don't work too hard & don't get too rugged with the women...Line up a couple, & be ready. I prefer brunettes, & nice, you know. So come on pal you're the guy who can fix it up. Well so long till next time.

Your friend always,
Wyman."
